Name: Jason Lee

Born: April 25, 1970 in Orange County, California

Eye Color: brown

Hair Color: brown

Height: 6'1 1/2

Sign: Taurus

Rank: # 92

It's the one, the only, Jason Lee coming in number 92 on our 100 hottest guys list. This man is almost 40 and still excellent looking.

Jason Lee is an actor and a former professional skateboarder. I never knew him as a skateboarder but I do know him as an actor. I loved him in the movie Heartbreakers with Jennifer Love Hewitt and Sigourney Weaver. He was a sweetheart in that movie. He also did a great job in Alvin and The Chipmunks which made me laugh several times.

Jason Lee comes in number 92 because he is a big time cutie. He has the greatest smile when he shaves that hairy beard. His smile is always big and looks truly happy and sincere. It doesn't look like he is just smiling for a camera.

Now that I know he was a professional skateboarder makes him even hotter. I love guys who are athletic because they like to go out and have fun instead of just watch TV or go to dinner.

Here comes the tallest factor again. Jason Lee is tall so that makes him hotter than if he were short. Tall guys are just more sexy than short ones. Well actually they don't have to be tall, they just need to be taller than me. And Jason Lee is almost seven inches taller than me. That is plenty tall.

Plus the guy is a good actor and he picks fun roles to be in. If he makes me laugh in a movie then of course he hotter than someone who is boring with no sense of humor. Personality has a lot to do with hotties. I would put someone with a personality higher than someone without one even if they were really hot. So it is a great thing this man has a fun bubbly personality.

Those are the reason's Jason Lee comes in number 92. Not the highest spot but he is definitely hot and deserves to be my number 92 spot. And once again there are more hot guys to come. Hotter guys to come.
