Some more eye candy for your pleasure. This actor/ director/ screen writer/ film producer/ artist, James Franco, comes in number 89. I recognize him as being the hottest guy in Spiderman.

This guy has really sexy. James Franco looks hot in every hair color. He changes his hair a lot and in my opinion he looks best as a dark brown hair. It is a great feature about him because if you like blondes, he can be a blond. If you, like me, like brunettes, he can be a brunette. He looks great all ways. Or maybe you want a blonde one month but the next month you want a brunette, you can keep the same hot guy! It is very convenient for you.

Okay I have to admit that I never got how being mysterious or looking mysterious was sexy or hot. But I can see it in James Franco. His eyes kind of make him look like you won't ever know everything about him. Maybe it is because he kind of squints, and you can't see his whole eye. It is kind of hot.

Name any body part on James Franco and it will be sexy. This guy can make a bunion look good. Everything about him is sexy. His lips, chocolate brown eyes, and of course, that very sexy body. Every where James Franco goes, he should be shirtless. It should be law that this man is never allowed to put another shirt on for as long as he lives.

And those are the reasons why James Franco makes number 89 on your 100 hot guys list. We keep getting closer and closer but we still have quite a ways to go, so buckle up and hold on to something because they only get hotter and hotter from here on out. I know I will enjoy it!
