Ohh... the handsome, romantic man from A Walk To Remember, Shane West ladies, is our number 88. He is fine, super fine, but the reason why he is so high on this is because I think there are a lot of actors that look just like him and have his same features. So he is HOT but his looks are common.

Not only is this man hot but he also has a sweet little heart. Well at least he played a sweet bad boy in A Walk To Remember, also starring Mandy Moore. I liked that movie and how sweet he was in it. I almost cried at the end. He was just the popular self centered man who fell in love with the free spirited girl nerd (Mandy Moore). It was a sweet, romantic story and a really good movie. It is the only thing I know him from and he got me hooked on his looks.

Remember how I said Shane West doesn't have distinguishing features, well at least he has a nice body! Once again it should be illegal for this man to put another shirt on in his life. He has one hot body. I do not mind at all finding pictures for these articles. Not one bit. His body is pretty dang sexy.

Any guy who is a good actor and does not mind playing a romantic, and not to mention he is extremely hot, is the kind of guy for me, just as long he has a some smarts and is fun to hang out with. That would work for me.

Well there you have it folks, Shane West is our number 88. Now we are really starting to move on to bigger, better, hotter things. Still can't guess who is next and who is the hottest man on the planet? Hang in there, you'll find out soon.
