Hannah Montana/ Miley Cyrus is possibly the most famous person on Earth right now. I do not care who you are, I know you have heard of her. You do not have to be nine years old to know her name. Everyone from six months old to 104 know her name, know her face, and know how unbelievably famous she is. She has the very popular TV series, Hannah Montana, for the kids and she has those wonderful picture scandals for the tabloids and everyone who can read.

I personally enjoy Hannah Montana / Miley Cyrus's music. And I am not just saying that because I don't want to anger a billion desperately dedicated fans. I think she has a powerful for only being fifteen, nearly sixteen.

Not only can she sing but she also has some really good songs. I know her dad writes them but some just have really cute and powerful meanings and others just make you dance and sing along. They are good for every kind of person. A country person or a rock person. It doesn't matter!

My favorite song by this young pop star is "Nobody's Perfect". This is one of the first songs I heard by Hannah Montana. I listened to it everyday and it made me laugh and made me smile so why wouldn't I listen to it everyday? It is very inspirational and fun. [youtube](http://www.youtube.com/watch?v=H8DIyWK72OA)

My favorite song that she performs as Miley Cyrus is "See You Again". This is a little bit more mature song than "Nobody's Perfect" but it is just as good. I think everybody should like this song even if Disney Channel stars are not their music style. She sounds like so much more than a Disney Channel star.

Her best ballad song is called "One In A Million". Every time I hear this song, it sends chills up my back. Her voice is very powerful. This songs makes you think about what you have in life. One of the best lyrics, I have ever heard is "They say that good things take time, but really great things happen in a blink of an eye". Good lyrics and good singing. Over all Hannah Montana/ Miley Cyrus is a great "artist". She is no longer just a child with a decent voice and a famous dad, Billy Ray Cyrus. She has more talent than her dad and she does a great job of showing it.
