Alessandra Corine Ambrosio

April 11, 1981

Brazilian born Alessandra Ambrosio is the latest model turned actress with recent performances on "how I met your mother" and "entourage". The difference between her and others is that with more exposure she could have one of the largest followings ever. Why you ask; well because she is hott. She is probably one of the hottest discoveries of the new century. Just take a look and all of the hot pics below and you will see for yourself why she will soon become a fan favorite worldwide.

Alessandra is a Victoria's secret model and we all know that they only take the cream of the crop. I have to say that it doesn't get any creamier than her sexy little booty. What is it about Brazilian babes? Are they really that much better looking than the rest of the world? I have to say from my vantage point, every single one I have seen is a fox, so the answer must be yes. Big juicy butts and brown skin gets me every time. Although Alessandra isn't as dark as I would like she is still one of the hottest women in the world. Go ahead and judge for yourself.
