This Mummy hottie, Brendan Fraser, is coming in number 79 on the hot guys list! First of all, this guy is totally cool. I love him as an actor! The Mummy movies are some of my favorites and he is buff and athletic in them!

But he is more than just a good actor, he is HOTT too! Ever since I saw Encino Man and George In The Jungle, I knew Brendan Fraser would be number 79 on my hot guys list. I mean for one thing look at this man's body. It is rock hard, like marble. Six packs are sexy but Brendan Fraser turns that six pack into an eight pack and makes it even sexier.

But of course, there were other things, than his body, that make Brendan Fraser hot. Such as his adorable, silly smile. It is wide but truly happy. Nothing is more sexy than someone who is happy and not afraid to smile! Plus his smile makes his gorgeous eyes light up like a fire cracker and glitter to make stars jealous! Or maybe it is just Hollywood lighting! Ha-ha.

Another thing I like about him is, he is not always in the tabloids. I mean sure when he has a new movie coming out but other than that you don't hear much about him. He keeps to himself and not an attention whore. Some celebrities, no matter how hot they are, are annoying because they are always in the lime light. Although I love reading about it, I don't care for the people that much.

So there you have it! The many reasons why Brendan Fraser is coming into number 79. It is simple, he is just hot and very, very sexy. But we still got 78 more sexy guys to go!
